Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and the major fund of Silverstone Metropolitan District No. 2, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the major fund of Silverstone Metropolitan District No. 2 as of December 31, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the budgetary comparison information on page 19 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

SILVERSTONE METROPOLITAN DISTRICT NO. 2
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 1 DEFINITION OF REPORTING ENTITY

Silverstone Metropolitan District No. 2 (District) is a quasi-municipal corporation and political subdivision of the State of Colorado that was organized by order and decree of the District Court in Weld County on June 4, 2008. The District operates under a Consolidated Service Plan with Silverstone Metropolitan District No. 1 (District No. 1) and Silverstone Metropolitan District No. 3 (District No. 3) approved by the Town of Frederick (Town) on February 5, 2008. Pursuant to the Service Plan, District No. 2 and District No. 3, the financing districts, are intended to provide funding to the District. District No. 1, the operating district, is intended to manage the financial, construction and operation and maintenance of such improvements as well as the day-to-day operations and administrative management of all three of the Districts. The operating district will be economically dependent upon intergovernmental revenue received from the financing districts in future years.

District No. 1 has the power to provide water, sanitation, storm drainage, streets, traffic and safety controls, park and recreation improvements and other related improvements for the benefit of taxpayers and service users within the Districts' boundaries. The Service Plan requires the District to convey the constructed improvements to the Town or HOA for ownership and maintenance.

The District has no employees and all services are contracted.

The District follows the Governmental Accounting Standards Board (GASB) accounting pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB pronouncements set forth the financial accountability of a governmental organization's elected governing body as the basic criterion for including a possible component governmental organization in a primary government's legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization's governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency.

The District is not financially accountable for any other organization, nor is the District a component unit of any other primary governmental entity, including District No. 1, District No. 3, and the Town.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The more significant accounting policies of the District are described as follows:

Government-Wide and Fund Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities. These financial statements include all of the activities of the District. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of net position reports all financial resources of the District. The difference between the assets, liabilities and deferred outflows and inflows of resources of the District is reported as a net position.

SILVERSTONE METROPOLITAN DISTRICT NO. 2
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-Wide and Fund Financial Statements

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met. Construction in progress is shown as an increase in assets.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The major sources of revenue susceptible to accrual are intergovernmental revenue and property taxes. Expenditures generally are recorded when a liability is incurred as under accrual accounting. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The District reports the following major governmental fund:

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government.

Budgets

In accordance with the State Budget Law, the District's Board of Directors holds public hearings in the fall each year to approve the budget and appropriate the funds for the ensuing year. The appropriation is at the total fund expenditures level and lapses at year-end. The District's Board of Directors can modify the budget by line item within the total appropriation without notification. The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated. The adopted budgets for the General Fund and Debt Service fund have been consolidated and reflected as the General Fund Budget for financial reporting purposes.

NOTES TO FINANCIAL STATEMENTS

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property Taxes

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April, or if in equal installments at the taxpayer's election, in February and June. Delinquent taxpayers are notified in August and generally, sales of the tax liens on delinquent properties are held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes are recorded initially as deferred inflows of resources in the year they are levied and measurable. The property tax revenues are recorded as revenue in the year they are available or collected.

Fund Balance and Net Position

Net position is reported in the governmental activities and is classified as restricted, unrestricted, or net investment in capital assets. Restrictions of net position represent amounts that are not available for appropriation or are legally restricted. Net investment in capital assets includes the values of capital assets. As of December 31, 2019, fund balances of governmental funds are classified as follows:

Nonspendable – amounts that cannot be spent either because they are not spendable in form or because they are legally or contractually required to be maintained intact. This includes amounts that are not expected to be converted to cash, for example, prepaid amounts.

Restricted – amounts that are subject to externally enforceable legal purpose restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments; or through constitutional provisions or enabling legislation.

Committed – amounts that are subject to a purpose constraint imposed by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. Commitments may be established, modified or rescinded only through resolutions approved by the Board.

Assigned – amounts that are subject to a purpose constraint that represents an intended use established by the District in its budget process. The purpose of the assignment must be narrower than the purpose of the General Fund.

Unassigned – represents the residual classification for the District's General Fund and could report a surplus or deficit. In 2019, the General Fund reported an unassigned fund balance of \$16,596.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Restricted Fund Balance

Emergency Reserves have been provided for as required by Article X, Section 20 of the Constitution of the State of Colorado (see Note 9). In compliance with this requirement, \$1,042 of the General Fund balance has been restricted.

In 2019, the District reported fund balance restricted for debt service of \$635,250.

The District's order of fund balance spending policy is to apply expenditures against restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance. The District reserves the right to selectively spend unassigned fund balance.

NOTE 3 CASH AND INVESTMENTS

Cash and investments reflected on the statement of net position as of December 31, 2019 consist of the following:

Restricted Cash	\$ 635,250
Unrestricted Investments	17,458
Total Cash and Investments	<u>\$ 652,708</u>

Cash Deposits

The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulators. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool for all the uninsured public deposits as a group is to be maintained by another institution or held in trust. The market value of the collateral must be at least equal to the aggregate uninsured deposits.

The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured deposits and assets maintained in the collateral pools.

The District's cash deposits were covered under PDPA and not subject to custodial credit risk. At December 31, 2019, the District's cash deposits had a carrying balance of \$635,250.

NOTE 3 CASH AND INVESTMENTS (CONTINUED)

Investments

The District has not adopted a formal investment policy; however, it follows state statutes regarding investments. The District also follows investment policies in bond or note agreements when those agreements are more restrictive than state statutes. The District generally limits its concentration of investments to those noted with an asterisk (*) below, which are believed to have minimal credit risk; minimal interest rate risk and no foreign currency risk. Additionally, the District is not subject to concentration risk disclosure requirements or subject to investment custodial credit risk for investments that are in the possession of another party.

Colorado statutes specify investment instruments meeting defined rating and risk criteria in which local governments may invest which include:

The State Securities Commissioner administers and enforces all State statutes governing the Trust. The Trust operates similarly to a money market fund and each share is equal in value to \$1.00. The Trust is rated AAAM by Standard & Poor's and is valued at amortized cost. Based on the valuation method, additional disclosures are not required under GASB Statement No. 72.

SILVERSTONE METROPOLITAN DISTRICT NO. 2
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2019

**NOTE 8 DISTRICT FACILITIES CONSTRUCTION AND SERVICE AGREEMENT
(SERVICE CONTRACTS) AND OTHER AGREEMENTS (CONTINUED)**

Districts No. 2 and No. 3 are required to fund, on an annual basis, the amount of actual service costs that it would be capable of funding through property tax revenue plus other fee revenue as determined in the annual budget. If the District disagrees as to the amount to be paid, then Districts No. 2 and No. 3 must pay District No. 1 the amount set forth in the annual budget. During fiscal year 2017, the Colorado legislature reduced the residential assessment ratio from 7.96% to 7.20% causing the property tax mill rate for general obligation bonds and service costs to increase from 50 mills to 55.275 mills. The residential assessment ratio decreased to 7.15% in 2019 causing the mills to increase to 55.663 for taxes to be collected in 2020.

NOTE 9 RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; thefts of, damage to, or destruction of assets; errors or omissions; injuries to employees; or acts of God.

The District is a member of the Colorado Special Districts Property and Liability Pool (Pool) as of December 31, 2019. The Pool is an organization created by intergovernmental agreement to provide property, liability, public officials liability, boiler and machinery, and workers' compensation coverage to its members. Settled claims have not exceeded this coverage during the past three years.

The District pays annual premiums to the Pool for liability and public officials liability coverage. In the event aggregated losses incurred by the Pool exceed amounts recoverable from reinsurance contracts and funds accumulated by the Pool, the Pool may require additional contributions from the Pool members. Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

NOTE 10 TAX, SPENDING AND DEBT LIMITATIONS

Article X, Section 20 of the Colorado Constitution, referred to as the Taxpayer's Bill of Rights (TABOR) contains tax, spending, revenue and debt limitations, which apply to the State of Colorado and all local governments.

Spending and revenue limits are determined based on the prior year's Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

NOTE 10 TAX, SPENDING AND DEBT LIMITATIONS (CONTINUED)

On May 6, 2008, a majority of the District's electors authorized the District to collect and spend or retain in a reserve all annual District revenue without regard to any limitations under TABOR.

The District's management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits, will require judicial interpretation.
